[] Hints: Are typed in italics and coloured purple, they are to help and guide you and hopefully make life a little easier, especially for beginners.

Reference to photos is [P] with the relevant photo number

* * Repeat instructions between asterisks the amount of times specified.

This is normally a repeat for a complete side and will consist of multiple instructions.

() Repeat instructions between parentheses the amount of times specified.

This is a lower level repeat.

For this part you will be working in rows.

You may choose to begin each row with a number of chains as your 1st stitch, or you may use standing or starting stitches.

If you use chain start remember that the last stitch of the following row will be made into the 3rd chain for tr rows or 4th chain for dtr rows.

If like me you prefer to not have lots of ends to work away, you may want to use a magic knot to join new colours at the beginning of a row, and replace any standing stitches with ch 3 for a tr, and ch 4 for a dtr.
