*[ ] Hints: Are typed in italics and coloured purple, they are to help and guide you and hopefully make life a little easier, especially for beginners.*

**\*\*** Repeat instructions between asterisks the amount of times specified.

This is normally a repeat for a complete side and will consist of multiple instructions.

**()** Repeat instructions between parentheses the amount of times specified.

This is a lower level repeat.

For this part you will be working in rows.

You may choose to begin each row with a number of chains as your 1<sup>st</sup> stitch, or you may use standing or starting stitches.

If you use chain start remember that the last stitch of the following row will be made into the 3<sup>rd</sup> chain for dc rows or 4<sup>th</sup> chain for tr rows.

If like me you prefer to not have lots of ends to work away, you may want to use a magic knot to join new colours at the beginning of a row, and replace any standing stitches with ch 3 for a dc, and ch 4 for a tr.
