Hint: to keep neat even loops when working sc3tog fold your work in half after making 1st sc3tog.
Hint: For this round you will be working on the wrong side to have your bobbles sitting pretty on the right side. Please remember that over the next 2 rounds you will be turning your work and so the working loops will reverse, just as if you were working in rows rather than in the round.

Hint: take care not to miss 1st st after bobble especially the 1st st after the point space bobble.

44. Ch 1, TURN YOUR WORK [wrong side facing you], and sc in same st, sc in next 4 sts, *(make a bobble st in next st, sc in next 5 sts) 3 times, sc3tog over next 3 sts [both sc3tog plus sc], (sc in next 5 sts, bobble st in next st) 4 times, [Hint: the 4th bobble will fall in the 2nd sc in 3 sc point group] sc in next 5 sts.*

Hint: the 12th dc after point group on each side will fall in the dc3tog, and the new point space falls in the 2nd hdc of point group of 3 hdc.
Repeat from * to * 7 more times, omit last point group.
Join to standing dc, fasten off, and secure ends.

Hint: leave weaving the ends of Round 46 until after you have done the next section as it will look so much better to hide them under the next round.
Also your work will curl over slightly.

You now have another beautiful star and have completed part 6...
See you next week.
