Swapping colours and yarn types to **Special DK**

I have done this to help those of you wanting to use your own colours, based on the meters per colour I used, just take a good look at the colour ways and decide which colours you want to swap out...then fill in the swap to bit for your own colour way.

For example, if you want to use the Creation colour way, 9 colours, and you want Violet as your replacement for Lapis, then you will need 4 balls etc...

Creation colour way 9 colours
