The meters/yards given per square in the table below is based on Stylecraft Special Dk yarn working with a 4mm G hook and standard tension.

Please be aware that heavier weight yarns, larger hook or looser tension will require more meters/yards per square.

Use this table to multiply the number of squares you will be making by the amount of each colour required for the square.

For example, if you are going to make 20 Igraine squares in C5 you will need a total of 23.5 meters x 20 = 470 meters.
